STORM HAVOC TERRIBLE

REPORTS OF LAST NIGHT'S DEVASTATION BY WIND AND RAIN WIDESPREAD.

SOUTHERN STATES SUFFERED THE MOST

In Tennessee, Arkansas and Mississippi a Score or More Are Known to Have Been Killed and Very Many Injured.

Memphis, Tenn., April 30.—Portions of Tennessee, Arkansas and Mississippi, within a radius of several hundred miles of Memphis, were swept by a storm of wind and rain last night which claimed the lives of a score or more persons. Several days may elapse before the whole story is known.

In the "tornado belt" of Arkansas two are known to be dead and over 150 injured. In Northern Mississippi, the vicinity of Horn lake probably suffered most. Many small farm buildings are razed, and the number of dead is placed at twelve.

Farm houses and cotton gins are masses of wreckage, some ablaze near Jackson, Tenn., where seven persons were killed and many injured.

There was an enormous property loss at Young's crossing, and five persons are dead there.

Storm Is General.

Kansas City, April 30.—A twenty-miles-an-hour north wind, with temperature 40 degrees above, were the conditions prevailing generally in Western Missouri and throughout Kansas today. It is freezing in the Texas Panhandle. There will probably be a killing frost in Missouri, Oklahoma and Kansas tonight.

The telegraph and telephone lines were the chief sufferers in this section from last night's wind.

Tornado in Southwest Missouri.

Springfield, Mo., April 30.—A special from Summersville, Mo., says that a tornado passed ten miles north of that place last night, killing two and injuring many, several probably fatally. Scores of houses were demolished and telegraph and telephone lines were blown down.

Another special says the tornado that struck Golden last night wiped that town off the map, with the exception of one brick building. Five were killed and over a dozen injured.

One Town Was Blown Away.

Louisville, April 30.—Several persons are reported to have been killed in last night's tornado near Franklin, Tenn., and the town of Hillsboro, a few miles from there, is said to have been blown away.

Storm Was Fatal in Chicago.

Chicago, April 30.—Six persons were killed and fifty injured in Chicago and suburbs during the storm last night, according to reports received today by the police and coroner.

FAST STEPPERS ARE HERE

Several Have Been Added to the Ervin Training Stable.

W. F. Ervin, the driver and trainer, has added to his training stable at the state fair grounds several very fine prospects for the races the coming season. Among them are:

Baron Reaper, 2:29½, by Early Reaper, 2:09½. This horse will trot in 2:12 or 2:15 this year. He is owned by ex-Gov. Colman, of St. Louis.

Corporal Hunt, a 3-year-old pacer, with less than thirty days' work, stepped a quarter in 35 seconds.

Silver Heir, Jr., a 2-year-old, acts and looks like the real thing.

Peter Newell, a chestnut stallion, 1:30 Spinx, 2:20½, the sire of 128 in 2:30 or better.

Buzz, 2:16½, by Earl Downing, first in Konia, 2:25½, looks good for his class.

FUNERAL OF MISS GIBBS

From the First Baptist Church Saturday Afternoon.

The funeral of Miss Lucia M. Gibbs, who died yesterday morning, will be held from the First Baptist church at 2:30 o'clock tomorrow afternoon.

The pastor, the Rev. F. Y. Campbell, assisted by the Rev. D. M. Claggett, pastor of the Broadway Presbyterian church, will officiate.

Burial will be in Crown Hill cemetery.

tery. The following will be pallbearers: Roy Lange, Homer Poundstone, Arthur Friemel, W. D. O'Bannon, Edwin Scott and George Ware. The casket will not be opened at the church.

Miss Florence Lamy will be in charge of the music, which will be rendered by the chorus choir of which deceased was a member. The following selections will be sung: "Refuge," "Shall We Meet Beyond the River?" and "Some Sweet Day By and By."

"Fred" to Be Night Chief.

Fred Robertson, a patrolman, will be promoted to night chief of police by Chief Boult, the promotion to take effect tomorrow.

NEW 'PHONES INSTALLED

THE DEMOCRAT-SENTINEL'S OFFICE SERVICE GREATLY IMPROVED.

SEVEN "HELLO" BOXES NOW UTILIZED

Phones of Both the Bell and Home Companies in Every Department of the People's Favorite Newspaper.

Effective today, the Democrat-Sentinel is pleased to announce a change in its office telephone service.

In future, persons desiring to converse with A. D. Stanley, business manager; W. P. Stanley, cashier and bookkeeper; W. J. Brill, in charge of advertising, or W. D. Owens, in charge of city circulation, will please call No. 520 on the Bell 'phone, instead of 232, their former number.

If the editor, George H. Scruton, is desired, call No. 360, instead of No. 232, which latter number he formerly answered.

Parties having news items for publication in the Democrat-Sentinel, or desiring to talk with E. B. or Lon M. Burrows, will please call No. 232. Manager Shields R. Smith, of the Bell Co., has given the Democrat-Sentinel a service that is not surpassed in the newspaper offices in the large cities, and his efforts are appreciated by the Democrat-Sentinel management.

But this is not all. The Home Telephone Co., of which Mr. F. S. Leach is the clever manager, has also been busy in behalf of the Democrat-Sentinel, and four 'phones have been installed in the different departments, as follows:

Business manager, cashier and bookkeeper, circulator—No. 232. News department—No. 232-X. Advertising—No. 232-Y. Editorial—No. 232-Z.

SEARCHING FOR A HUSBAND

Wife Did Not Find Him Here and Went to Jefferson City.

Mrs. A. R. Woody, of West Virginia, was a guest at the Delmar hotel today, and enlisted the services of the police in locating her husband, who has been away from home for some time.

According to the description given the police, Woody is about six feet three inches tall, has dark hair and blue eyes. About three years ago he was employed as a fireman by the Missouri Pacific, and later worked for the M. & K. T.

Mrs. Woody stated her husband wrote a letter from Sedalia to Virginia about three weeks ago, and another letter less than a week ago.

Unable to find any trace of Woody here, the wife left for Jefferson City on the noon train.

WILL STRIKE THE CHIMES

Those of Westminster in Front of Bard's Jewelry Store.

C. H. Bard, the jeweler, is having installed in front of his store a set of electrical tubular chimes, manufactured by the McClintock-Loomis company, of Minneapolis, Minn., which is one of the most novel advertisements yet introduced in Sedalia.

The apparatus renders Westminster chimes on the hour, half-hour and at each quarter. It is being installed by representatives of the manufacturing firm.

The novelty is connected by electrical wires to a clock in the rear of the store. The outfit costs approximately \$500, and will be in operation for the initial time next Sunday morning.

THE WOMAN'S AGE

A FIRE LOSS OF \$100,000

BUSINESS BLOCK AND CHURCH DESTROYED AT PARSONS, KAN., LAST NIGHT.

STARTED FROM A GASOLINE EXPLOSION

Local Fire Department Inadequate—Reinforcements Were Summoned From Coffeyville, Joplin and Fort Scott.

Parsons, Kan., April 30.—Fire, which broke out in Charles Gerner's tailor shop, in the Strasburger business block, about 9 o'clock last night, from a gasoline explosion destroyed the entire block.

The sparks, carried by a high southeast wind, threatened the residence portion of the town.

The two local fire companies proved inadequate and reinforcements were sent for from Joplin, Coffeyville and Fort Scott. The fire was under control at midnight. The total loss exceeds \$100,000.

The fire was first discovered at 9:15 o'clock. Before the firemen arrived it had spread to adjoining buildings.

Among the institutions in the burned section were: A. A. Gerner Tailoring Co., where the fire started, destroyed; P. M. Johnson Music Co., carrying a stock of twenty-five pianos, besides other valuable instruments, total loss; Harry B. Ross Millinery Co., total loss; American Tea Co., total loss; C. J. McKnight, book store, completely destroyed; Ellis-Martin Furniture Co., partial loss; Methodist church, total loss, and parsonage of the church, partially destroyed.

Many doctors, lawyers and dentists had offices in the buildings. The Strasburger building, with 100 feet frontage, was destroyed. The church was valued at \$17,000.

Guests of the Madison hotel succeeded in getting everything of value out before the fire reached the building. The heroic work of the fire department and the volunteers saved the building from destruction. The hotel was apart from the rest of the block.

HAD HIS JAW FRACTURED

J. H. Hall, Who Is Employed at Missouri Pacific Shops.

J. H. Hall, an engine boiler truckman at the Missouri Pacific shops,

was struck in the face by a truck handle at the shop today and suffered a fracture of the left jaw.

Dr. Charles McNeil, of the M. & K. & T. hospital, staff, was summoned to the shops and removed the patient to the company hospital, where his injury was dressed.

Mr. Hall will go to the company hospital at St. Louis tonight.

Bank Examiner Has Resigned.

Oklahoma City, Ok., April 30.—John M. Hale, national bank examiner for Oklahoma, today wired his resignation to the comptroller of the currency, and will associate himself with the State National bank here as vice president and director.

LEFT FOR TRAIN TO KILL

BUT AN INDIANA ENGINE STOPPED BEFORE IT STRUCK LITTLE GIRL.

FIENDISH ACT OF A MAN WHO IS UNKNOWN

The Train Was Brought to a Stop When Within Thirty Feet of Where the Child Was, Unconscious of Danger.

Gary, Ind., April 30.—A man not known to any who saw him placed a 5-year-old girl on the track of the Michigan Central just before the passenger train which arrives at this place at 8:38 o'clock was due Wednesday night and then disappeared in the woods.

A policeman saw the affair and ran down the track to signal the train.

The engineer saw the signal and put on the air, and the wheels of the engine were brought to a stop thirty feet from where the child was, unconscious of danger.

The little girl was taken to the police station and an effort made to find the man, but no trace of him could be found.

The child said her name was Virginia Zalletto and that she is 5 years old.

Five-Year Sentence Confirmed.

St. Louis, April 30.—The circuit court of appeals today affirmed the sentence of five years' imprisonment at Leavenworth of S. D. Harper, former cashier of the First National bank of Miami, Ok. Harper made a false report of the bank's condition to the comptroller of the currency.

COL. T. P. RIXEY MARRIES

GENTLEMAN IS WELL KNOWN TO A NUMBER OF PEOPLE IN SEDALIA.

THE COLONEL'S THIRD VENTURE, THIS IS

Was State Labor Commissioner Under Governor Stephens—For Number of Years State Lecturer of the I. O. O. F.

St. Louis, Mo., April 30.—Friends of Col. Thomas P. Rixey, of 4140 Morgan street, state labor commissioner under Governor Lon V. Stephens and conspicuously identified for many years with the democratic party in Missouri, have just learned that he was married April 19 to Miss Marie T. Haug, of Dent county, Mo. This is Col. Rixey's third marriage.

The wedding was at the home of Harry Elayer, French Village, Ill., in the presence of a few friends, the Rev. J. W. Billman officiating.

Col. Rixey, who is connected with the state labor bureau at Jefferson City, returned to the capital the day after his marriage, and resumed his duties, saying nothing about his new matrimonial venture.

Mrs. Rixey went to the home of her mother, who lives in French Village and who is seriously ill. She will join her husband in Jefferson City as soon as her mother's condition permits.

Mrs. Rixey is said to be an exceptionally cultured and attractive woman, a member of one of Dent county's prominent families. Col. Rixey's first wife died in the '70s, and his second wife twelve years ago. His second wife was a niece of Judge D. P. Dyer and a cousin of Hon. David A. Ball.

Col. Rixey was reared in Virginia. He was for many years lecturer and attorney for the National Good Roads association, traveling in all parts of the country in special trains and delivering addresses on good roads. He also was for many years state lecturer for the Independent Order of Odd Fellows.

WILL CUT "GABFESTS" SHORT

Only Certain Amount of "Tommy Rot" for Lovers at Grammar's.

D. A. Grammar, proprietor of Grammar's Palace of Sweets, has devised

a scheme that puts asunder Cupid's charms, carried over the telephone, and has installed the device in his place of business, much to the discomfort of telephone users.

The plan is this. He has attached an electric wire leading from the Bell telephone down under the floor to the opposite side of the storeroom. At the end of the wire, and hidden from the view of outsiders, is a small lever, which, when pressed, disconnects the telephone connection.

When the lever is pressed, all efforts of the telephone "central" to reconnect the parties talking is fruitless, until the man at the lever does his part.

SYNDICATE IS CENSURED

A RAP AT THOSE AT THE HEAD OF THE VARIOUS THEATRICAL TRUSTS.

BILL OF HON. G. W. ANAMOSA ENDORSED

County Flooded With So-Called Musical Comedies, for Which \$1, \$1.50 and \$2 Is Demanded, Dear at Any Price.

Jefferson City, Mo., April 30.—Representative George W. Anamosa, of Sedalia, author of the so-called theatrical trust bill, which passed the house this week and is now pending in the senate, is in receipt of letters from the theater managers in the smaller cities of the state, commending the measure.

These managers charge that a few persons in New York City control the theater business of the United States. The syndicate, it is contended, has imposed upon the western states.

"The present season," writes one of the managers, "has been one of the worst, from a financial standpoint of view, in the history of the American stage. The cause is that the public has been surfeited with a lot of worthless, claptrap trash and cheap plays, or plays that sicken and disgust."

"The average New York manager, under the syndicate and trust system, has foisted on the public a lot of so-called musical comedies that depend on their 'show girls' for a few jingles and a choice assortment of stale jokes for their vehicle, surrounded by gaudy and costly scenery."

"For these alleged entertainments they have demanded \$1, \$1.50 and \$2. The American public should not at low syndicates, trusts and combinations to force upon the people a lot of trashy stuff at high prices which is not worth seeing at any price."

A CASE IN BANKRUPTCY

Theodore R. Palmer, a Missouri Pacific Machinist.

Theodore R. Palmer, a Missouri Pacific machinist, has filed application for relief under the bankruptcy act.

His liabilities amount to \$255.11. Nearly all of his creditors reside in Parsons, Kan., and include a doctor and undertaker of that place.

His assets consist of his wearing apparel and his monthly pay check, amounting in all to about \$150, and the check is held up in a garnishment suit.

MUCH DAMAGE BY THE HAIL

So Says Benjamin Dove, Who Lives Southwest of Sedalia.

Benjamin Dove, of seven miles southwest of Sedalia, was a visitor in the city today, and reported heavy damage by the hail storm yesterday.

The stones were as large as hen eggs, so Mr. Dove said, and smashed to smithereens all the windows in the west and south side of his house.

Many other neighbors in that locality suffered likewise.

Mr. Dove's rubber cloth roof was completely destroyed by the large hail stones.

Named as One of the Managers. Nevada, Mo., April 30.—J. D. Ingram, mayor of Nevada, has been appointed a member of the board of managers of the ex-Confederate home at Higginsville, Mo.

Mr. Ingram was a member of the board of managers of the state hospital for the insane at this place, during Lon V. Stephens' administration. He is an ex-Confederate and was a brigadier general.

WIFE LEAVES AN ACTOR

ALICE FISHER, ACTRESS, SAYS SHE HAS A RIVAL, WHICH SETTLES IT.

THE LATTER IS A PRETTY CHORUS GIRL

William Harcourt, a Footlight Favorite, Alleged to Be Too Intimate With a Member of His Company.

New York, April 30.—Alice Fischer, widely known as an actress and an officer in the Twelfth Night club and other organizations of women, has separated from her husband, William Harcourt, the actor, and has instructed her attorneys to begin an action against him.

Harcourt is leading man in Fritz Scheff's company, and the actor's acquaintance with a chorus girl in the company has caused the trouble in the Harcourt home.

Only a few friends of Mr. and Mrs. Harcourt know this trouble exists. Most of them still believe the married life of the Harcourts is a standing refutation of the allegations that marriages of stage folks seldom result happily.

"It grieves me to confirm the truth of the report," she said, "but it is useless to deny that Mr. Harcourt and I have separated. The kindest thing I can say about it is the Mr. Harcourt I have known for sixteen years is not the Mr. Harcourt of the last few weeks."

"While playing in Chicago with the Fritz Scheff company last November my husband met a young woman who is in the chorus. Although he has insisted to me that his friendship for the young woman has been blameless, she has had such an influence on him that after the most serious consideration I have ever given to any problem in my life, I have determined to begin suit against him for a separation."

COTTON WAS FINED \$100

One-Half of the Sum Remitted by Judge Gresham.

T. W. Cotton, a stockman formerly of Eldon, Mo., who is in Sedalia with a shipment of stock, was arrested by the police last night for attempting to choke Belle Pourie, of Fifteenth and Vermont streets.

He was arraigned in police court today, occupying one side of the room, while the prosecuting witness sat opposite.

When the woman had told her story Judge H. M. Gresham imposed a fine of \$100. Cotton asked for a remittance of \$50, which was granted, and he issued a check for the remainder in favor of Chief of Police Boult.

During the course of the hearing, Cotton, who was still under the influence of liquor, became abusive to the woman, and used loud and indecent language. He was promptly collared by Officer Jackson and remanded to jail, awaiting further action.

In the meantime, W. D. O'Bannon, his attorney, got busy and after the court had adjourned, secured Cotton's release.

MOCK ALLEGED RAPE CASE

Was Continued for the Twelfth Time in Court Today.

"Continued thirty days, at the request of Prosecuting Attorney Dow," were the words written on Judge F. W. Clark's docket this morning in the case of James Mock, charged with rape.

"Continue 't thirty or sixty days, or dismiss it altogether," was what Prosecutor Dow told Judge Clark this morning when the latter announced over the telephone that the case was ready for trial.

Mock was arrested months ago on the charge of having ravished his 13-year-old stepdaughter. The case has been under investigation since.

Dr. Steele Is Convalescent.

Dr. S. A. Steele, who lectured at the Fifth Street M. E. church, South, Wednesday night, and who was taken ill at his apartments at the Huckins hotel yesterday morning is up and around today, and is very thankful to Dr. W. G. Cowan, the attending physician, the Rev. J. F. Caskey, the hotel management and others who were so thoughtful of him during his illness.

COMING HOME?

Back to Sedalia, the beautiful
Queen City, and visit again the
scenes of years gone by.

The Home Coming reunion
will be held October 2, 3, 4 and
5, during the week of the Mis-
souri state fair.

The semi-centennial of the
founding of the city will be ce-
lebrated, and a grand welcome
will be extended to all who
gather to commemorate the
event.

There are ex-Sedalians every-
where, but they will all be here
again at the Home Coming.

GOOD FOR TURKEY AND GOOD
FOR THE WORLD.

With the victorious entry of the
constitutionalists into Constantinople
the time for further temporizing with
the sultan ceased. Had he been al-
lowed to retain the throne their victory
would have been incomplete. In re-
moving the trouble maker and con-
sidering him to a place from which his
influence can no longer emanate, the
young Turks have fulfilled a duty to
the empire and to themselves and
they have improved their standing
with other nations. Failure to have
taken this course at the opportune
moment would have rendered their
control of the government question-
able and would have exposed the re-
forms they have sought to bring
about to further interference by the
sultan.

Abdul Hamid is past the age where
he can be trusted or changed. He has
been the most tricky and the most
dangerous monarch in Europe for
generations. He has opposed the con-
stitution, parliament and modernism.
He has accepted them only when the
alternative was deposition. He still
hoped to carry the empire back into
the old regime of mystery, fanaticism
and tyranny, and lost no opening to
connive with the forces that secretly
conspired to this end.

There can be no doubt, in the light
of recent developments, that the re-
volt in Constantinople against the
young Turks had its origin and direc-
tion under imperial influences. It
was a bid for reaction so cunningly
played as to almost escape detection.
And there is no less doubt that this
capital conspiracy is directly respon-
sible for the massacres in Asia Mi-
nor. The fierce tribes in the outlying
provinces were given to understand
that the growth of constitutionalism
meant the death of Mohammedanism.
Fully aware of the horrible excesses
that this firebrand would inaugurate,
the sultan flung it out in the hope
that the old Turkish fanaticism might
be sufficiently inflamed to sweep the
empire and put an end to progress
during the remainder of his reign.
Abdul Hamid is, as he has been in

the past, responsible for the butchery
of the christians. He is the archi-
murderer of the old world and he
ought to pay the penalty of his
crimes against civilization. He has
been a menace to every christian, ev-
ery Armenian, every foreign interest
and every reforming force in Turkey.
The time never was when he could
be trusted for an instant. The end-
less trouble he has given the United
States is of itself proof that he was
utterly undependable and without con-
science. If Turkey were to be govern-
ed by a parliament and a constitution
Abdul was a preposterous incongru-
ity. Turkey does well to rid herself of
him. He should have been relegated
to the monarchical junk heap long
ago. He deserves a far sterner fate
than mere deposition.

There is not a government in the
world, including his special favorite,
Germany, but will welcome the end
of his career. The young Turks by
summarily banishing him, command
the admiration and respect of na-
tions abroad and perform a historic
service for the people of Turkey.
With the change Turkey enters upon
a new era, in which Moslems and
christians alike should, and if all
goes well will, share hitherto un-
known blessings.

WHEN WAR MAY CEASE.

While much of the world's con-
flict is directed to wondering what
will happen when armships shall reach
such development that they can be
used for war purposes, scientists are
thinking of other possibilities.

The increasing employment of wire-
less methods of communicating be-
tween points that may be far apart
has suggested the turning of the
ether waves to other accounts.

A distinguished professor who has
been investigating expresses the be-
lief that the Hertzian waves can be
utilized to send electric currents that
will readily reach the magazines of
forts and warships and blow them
up. This seems almost like riotous
fancy. In fact, the idea has been
wrought out as the central point of
a plot in a recent piece of fiction.
But few have taken the matter seri-
ously. This cool-headed professor,
however, intimates thorough belief in
the practicability of the plan. The
great question of the present, in his
view, is as to the cost of producing
such a means of destruction. To be
effective the system would be enor-
mously expensive.

But are not all these inventions
bringing the time nearer when na-
tions will be compelled to keep the
peace, because actual hostilities would
involve the risk of annihilation for
one side or the other, if not for
both.

We have had dreadful pictures of
what might happen when big fleets
of airships waged war against each
other. But awful as would be the
sight thus imagined, it would pale in
to insignificance were it possible for
such an invention as the wireless ar-
rangement mentioned to go about
blowing up forts, flying machines and
other objects at will. All that would
be necessary would be to direct the
current in the direction of any accu-
mulation of explosives; wreck and
slaughter would follow.

And if both sides were fitted with
wireless detonators the contest would
end like a cat fight. With proba-
bly less left to tell the story than
when only "their nails and the tips of
their tails" formed the evidence of a
fight that was literally to a finish.
When the time shall come when such
things can be, what nation will dare
go to war with another?

The Coopers have been denied a
new trial, which strengthens a little
more the hope that they may be pun-
ished for the murder of ex-Senator
Carmack.

If he knew where to address him,
we have no doubt that Castro would
be among the first to telegraph his
congratulations to Abdul Hamid.

Millinery has a decidedly turned
down effect this season, though the
prices run the other way.

Soon your neighbor's lawn mower
will inspire early rising, also that rise
of temper, which is not so beneficial.

HICKS
THE GROCER

Wait from a Waiter.
The waiter spoke eloquently.
"Men go about," he said, "com-
plaining of being mistook for wait-
ers, but it is on the other foot really
that the shoe rests. Us waiters are
the complainants in these cases of
mistaken identity. Our kicks are sin-
cere. The others' ring false. For
at dances, and balls, and such like
crushes many a young man makes
money by being mistook for a waiter.
How does he make money? Why, he
is tipped, and all them tips he pockets,
never thinking of handing them over
to their rightful owners. At every
big affair we count on a loss of five
per cent. on the dishonest advan-
tage that impetuous young swells
take of being mistook for waiters."

STORK IS EXPECTED SOON

Cottage Is Being Prepared for the
Longworths.

Beverly, Mass., April 30.—A cottage
near that leased by President Taft is
being prepared for occupancy by Con-
gressman and Mrs. Nicholas Long-
worth.

This property is owned by Mr.
Longworth's mother and is at Ningo
Beach. It has ten rooms, which is on
high ground along the shore.

Mr. and Mrs. Longworth are expect-
ed to arrive early in the season. Al-
though this will be the first season at
the North shore for Mr. and Mrs.
Longworth, it is not likely that their
cottage will be a social rendezvous,
owing to the condition of Mrs. Long-
worth's health.

It is rumored that they are expect-
ing an heir.

JURY ACQUITS BENSON

Only Thirty Minutes' Deliberation in
Land Suit.

Washington, April 30.—John A. Ben-
son, of San Francisco, charged with
bribery of government officials in
connection with western land irregu-
larities, was acquitted by a jury in
the criminal court here at 2:25 p. m.
yesterday. The jury was out only
thirty minutes and the announcement
of acquittal was met with a demon-
stration of approval by the audience.

This is the second time that Ben-
son has been acquitted in this juris-
diction within a year, a jury last June
having declared that he was not guilty
of a conspiracy to defraud the gov-
ernment out of lands in the west.

The present case had been on trial
for several days.

PROHIBITION UP NEXT WEEK

Amendment to Be Reported to the
Senate Monday or Tuesday.

Jefferson City, Mo., April 30.—The
prohibition amendment will be re-
ported back to the senate next Monday or
Tuesday, according to Senator Greene,
chairman of the committee on con-
stitutional amendments.

The tax rider amendment is drafted
and the Conran amendment for prohi-
bition in 1913 will be stricken out.

Senators who favor submission are
restive and threaten to introduce a
resolution, as was done in the house,
calling upon the committee to report.

If reported on May 4, as announced,
and engrossed, as it is likely to be, it
will not reach a vote in the senate
before May 10.

An adjournment sine die is expect-
ed on May 15, or probably before, so
there seems little likelihood of sub-
mission.

interest everyone who desires the best

Making a Book of Novel Recipes.
The girl who has just been married
will be delighted with a booklet
made from unruled tablet paper and
tied into book form between cardboard
backs, covered with gay chintz or wa-
ter color paper.

If the latter is used a narrow gilt
line can be painted as a border and
on the front can be lettered: "What
Mother Used to Make" or "Favorite
Dishes."

There should be a page for each day
of the year, and on each one should be
clearly written a time-tested recipe
that cannot be found in a printed
cook book. A recipe can be written
on each side of a sheet, or if it seems
better to use only one side, on the
opposite blank page could go menus
for different meals, quotations about
eating and odd bits of culinary infor-
mation.

Little Lobster Creams.
Pound the flesh of a small lobster
with one gill of milk, rub it through
a sieve, add a teaspoonful of anchovy
sauce, a pinch of cayenne pepper and
a squeeze of lemon juice. Beat all
well together; whip rather than
half a teaspoonful of cream and add half
of this to the mixture, whipping all
the time you are adding it. Fill some
small china cases with the mixture
and pile the rest of the cream on the
top. Pound the coral of the lobster
and rub it through a sieve, sprinkling
the top of each case as you pass it
through. Stand on ice and serve cold
with brown bread and butter.

Potato Rolls.
Three small potatoes, boiled and
mashed; one cup warm milk, two eggs
well beaten, one cake compressed
yeast, one tablespoon salt, one cup
potato water. Melt butter and lard in
milk, mix well together and pour into
flour in mixing; take care not to use
too much flour. Let rise and work
down twice. Then cut with small bis-
cuit cutter, dip tops in melted butter,
fold and place in pans one-half inch
apart. If wanted for six p. m. set
about nine a. m.

Royal Pudding.
One cupful of bread crumbs well
crumbed, one pint of milk, one-half
cup sugar, the yolks of two eggs well
beaten, grated rind of one lemon, one
tablespoonful butter. Bake until done.
Spread on the pudding a layer of jelly
or jam. Then whip the whites of two
eggs stiff, beat in one-half cupful
of sugar and the juice of the lemon. Pour
over the pudding, bake in the oven un-
til slightly browned.

Baked Omelet.
One cup bread crumbs soaked in one
cup of sweet milk over night. Beat
the yolks of three eggs, add the bread
and milk, stir well, then add a pinch
of salt and the well-beaten whites of the
eggs. Bake 20 minutes.

White Meal Gems.
One egg, one cup of milk, quarter
cup of butter, two tablespoonfuls
sugar, one cup white cornmeal, half
a cup of flour, one teaspoonful cream
of tartar, half a teaspoonful of soda.
Bake 20 minutes.

AN ATTEMPT TO ABDUCT

YOUTH WITH WEALTH TRIES TO
CARRY OFF A MARRIED
ST. LOUIS WOMAN.

IT CAUSED A SENSATION IN DENVER, COLO

The "Hero" in the Case Is R. H. McAllister, Only Twenty Years of Age, Who Formerly Attended School in Columbia.

Denver, Col., April 30.—Enticed into a taxicab from her rooms, 1420 Glenarm street, and then escaping by a ruse, Mrs. H. H. Clinton, of St. Louis, says she was threatened with death Wednesday night unless she eloped with R. H. McAllister, 20 years old, who formerly lived in Columbia, Mo., but went to St. Louis because of his infatuation for Mrs. Clinton.

While Mrs. Leona M. Rowe, land lady of the rooming house, was telephoning police headquarters for aid, McAllister ran through the house, Mrs. Clinton said, armed with a revolver. She locked herself in her room, and her ardent suitor fled when he heard detectives were approaching.

Mrs. Clinton, who is three years McAllister's senior, says she came to Denver from St. Louis to escape the wealthy youth's attentions.

"His actions," said Mrs. Clinton, "caused my husband to leave me. McAllister made frequent trips from his home at Columbia to see me, and each time there was a scene. So I came to Denver, believing he would not find me here, but he did."

"He came to the city Wednesday and telephoned me. I refused to meet him. Then he came to the house in an auto and before I realized his intentions he led me to the machine. He ordered the driver to take us to the Union depot. Then I protested and begged to be allowed to get my clothes."

McAllister consented to this, but later became suspicious and returned to the rooming house, where Mrs. Clinton had locked herself in her room. He displayed a revolver and threatened to kill her unless she went with him. He fled when he heard detectives entering the house.

HANDS CRACKED RAW AND SCALY

Itched and Burned Terribly—Arms Affected, Too—Could Not Move Thumbs Without Flesh Cracking—Sleep and Work Often Impossible—Was Fairly Worn Out.

CUTICURA SOON CURED HIS FEARFUL ECZEMA

"About a year ago an itching humor began to appear around the back of my hand. It started in to spread, and pretty soon it covered both my hands and got up over my wrists and even up to the elbows. The itching and burning were terrible. My hands got all scaly and when I scratched, as I was doing a good part of the time, the surface would be covered with blisters and then get raw. The eczema got so bad in around the pit of my thumbs that I could not move the thumbs without deep cracks appearing. I went to my doctor, but his medicine could only stop the itching and did not seem to heal my hands up at all. At night I suffered so fearfully that I could not sleep, often lying awake until well toward morning, then waking up still tired. I am a chef and steward by trade and I had to give up my place, as my hands were so terrible to look at that they did not like to have me around about the food. I could not bear to touch them with water, but when I positively had to get my hands clean I would rub them with oil."

"This sort of business went on for three months and I kept trying zinc and tar ointments and such remedies with no particular benefit. I did not know what to do, for I was fairly worn out. For a long time several friends kept asking me why I didn't use Cuticura and at last I thought I would. First I got the Cuticura Soap, then Cuticura Ointment and at last Cuticura Resolvent. I put the Cuticura Ointment on at night, covering my hands with light cotton gloves. In the morning the inside of the gloves would be lined with scales, sometimes half as long as your finger, leaving nice healed places where the scales had been. In a month I was cured and have kept so now for nine months. My hands and arms are perfectly clear of all traces of eczema and I think I am well rid of it. Walter H. Cox, 16 Somerset St., Boston, Mass. Sept. 25, 1908."

Like That of Sedalia, Will Be First
Week of October.

South Bend, Ind., April 30.—The South Bend Chamber of Commerce will have a great home coming week, beginning October 3, and ending October 9, when all former residents of South Bend or St. Joseph county will have an opportunity to visit their former home, observe the city's and country's progress and renew old friendships.

It will be one of the greatest home coming weeks ever undertaken by any city. Religious services, parades, reunions, illuminations and other features will be carried out.

The Chamber of Commerce extends an invitation to all one-time residents of South Bend or St. Joseph county to at once send their addresses.

in Baltimore.

Baltimore, Md., April 30.—A warm welcome was extended today by citizens generally and by the Sons of the American Revolution resident here to the annual congress of the National Society of the Sons of the American Revolution, which began today and will continue tomorrow at the Hotel Belvedere.

The national board of trustees met at 9 a. m. and held a reception from 9 to 10 a. m. At 10 o'clock the mayor welcomed the body.

The delegates continued their work in the afternoon and this evening will attend a reception by the Maryland chapters.

Tomorrow a special train will take them to Annapolis, where the annual election will be held.

To take old stains from marble, mix one gill of soapuds and oxgall and a half gill of turpentine, and as much fuller's earth as will make a paste, and rub it on the stains. Leave it on for a few days and then wipe off.

In selecting velours or tapestry of any description, look at the backing. If you find a loose cotton weave, you may be sure that it will soon wear out. The backing of good tapestry is smooth and well finished, whereas the cheap variety is poorly backed.

Apple Cream Pie.
Line a deep pie plate with a rich puff paste, having an extra rim of the paste around the edge. For the filling stew three tart apples cored but not pared, then sift them and add while hot one-fourth cup of butter. Beat the yolks of three eggs with one-half cup of sugar, add the grated rind of one lemon, also juice, then the stiffly beaten whites of the eggs, and stir this mixture thoroughly with the apple. Add more sugar if needed. Pour the mixture into the pie plate lined with the paste and bake about one-half hour. Whip one-half pint cream stiff, sweeten it slightly and pile it on top when ready to serve.

Caramel Ice Cream.
Foundation for ice cream—One quart milk, heated in double boiler. Add two cups of sugar, four eggs, four tablespoons flour. Boil until thick and flavor with vanilla. Strain and cool. Just before freezing add one quart cream. Strain.

Caramel Ice Cream—Use above foundation. To the hot milk add one-half cup sugar, burned (to burn add enough water to make syrup over a very hot fire), then the rest of the sugar and ingredients follow.

LEAVENWORTH MAN STOOD OFF
MAYOR, JAILER, JUDGE, LI-
CENSE CLERK.

ALSO AGREES TO PAY FINE OF HIS BRIDE

Earns a Salary of \$15 a Week, and
Out of This He Expects to Pay
All of the Obligations That
He Has Incurred.

Leavenworth, Kas., April 30.—The credit system of "a little down and a dollar a week" was carried to its utmost possibilities here Wednesday, when W. A. Brown, a retail clerk, obtained the release of his fiancé, Florence Johnson, from the city jail on a promise to pay her fine at a little at a time, and then married her, in the probate court, on credit for his license and for the ceremony, moving into a suite of rooms furnished on the installment plan.

Miss Johnson came to Leavenworth several weeks ago seeking employment. Failing to find it, she succumbed to temptation. She was arrested and was fined.

Brown, while on his way to work that morning, saw the pretty girl bundled into the patrol wagon at the court room and hustled off to the city jail.

He became enamored of her at that moment, and, though poor, declared that he would marry her.

Brown called on Mayor Abernathy and pleaded for the girl. Often he visited her at the workhouse.

The mayor at last signed a remittance of the girl's jail sentence, with the provision that her fine be paid. Brown agrees to devote \$1 out of his \$15 a week toward paying his bride's fine.

Thomas L. Johnson, the kindly old judge of the probate court, extended sixty days' credit to Brown for the marriage license and for his services and married the couple.

Brown is paying the furniture man \$1 a week and the rest is going for groceries, clothes, fine, license and ceremony. He is happy.

Why Church Bells Any More?

Every once in a while a discussion arises as to the use of church bells. Their utility was long ago given up. Their beauty is still defended by some. But in the end the discussion comes back to the question of location. In the country, where distances are long and sounds are softened, a church bell is still enjoyable. But in a city street, where hundreds and thousands are close by, the sound is to most of them a noisy clangor.

AFTER THE DEACON PROCEEDED.

After Pastor Had Elucidated Text from Which He had Drawn His Sermon.

The colored parson had just concluded a powerful sermon on "Salvation Am Free," and was announcing that a collection would be taken for the benefit of the parson and his family. Up jumped an acutely brunette brother in the back of the church.

"Look a-year, pahson," he interrupted, "yo' ain't no sooner done tellin' us dat salvation am free dan yo' go askin' us fo' money. If salvation am free, what's de use in payin' fo' it? Dat's what I want to know. An' I tell yo' p'intedly dat I ain't goin' to gib yo' nothin' until I find out. Now—"

"Patience, brudder, patience," said the parson. "I'll lucidate: S'pose yo' was thirsty an' come to a river. Yo' could kneel right down an' drink yo' fill, couldn't yo'? An' it wouldn't cost yo' nothin' would it?"

"Oh, cou'se not. Dat's jest what I—"

"Dat water would be free," continued the parson. "But s'posin' yo' was to hab dat water piped to yo' house? Yo' have to pay, wouldn't yo'?"

"Yas, suh, but—"

"Wal, brudder, so it is wid salvation. De salvation am free, but it's de havin' it piped to yo' dat yo' got to pay fo'." Pass de hat, deacon, pass de hat."—Everybody's Magazine.

Death of Miss Mary J. Russell.

Miss Mary J. Russell, aged 65, died from blood poisoning at the home of her brother, Edward Russell, 400 North Stewart avenue, at 9:45 o'clock last night. She had been ill two weeks and had been an invalid for years.

Funeral services will be held at the family residence at 2:30 o'clock tomorrow afternoon, and the body will be shipped to Ironton, Mo., for burial.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

Everybody's friend—Dr. Thomas' Electric Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, scalds. Stops any pain.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

After a heavy meal, take a couple of Doan's Regulents, and give your stomach, liver and bowels the help they will need. Regulents bring easy, regular passages of the bowels.

Built in Memory of a Dog.

Of the memories to dog the most imposing of modern date is "Tell's Tower," a structure on the seashore near West Kirby, Cheshire, England. It is in honor of the great St. Bernard dog Tell, "ancestor of most of the rough-coated champions of England, and himself winner of every prize in the kingdom. He was majestic in appearance, noble in character and of undaunted courage." Built by the late M. J. Cumming Macdonia, the tower is a sort of summer house, in the base of which is a vault containing Tell's remains, guarded by an effigy of that remarkable animal.

Baker & Estabrook sells both Vigor and "S" flour.

In a Different Class.

"I hear, Mike, that your wife has gone into society. Has she become a club woman yet?" "Indeed no," she has not got into that class; she still uses a flatiron, sor."

NEW CHURCH FOR ST. JOSEPH

St. Patrick's Parish Will Also Build a Parochial School There.

St. Joseph, Mo., April 30.—The congregation of St. Patrick's Catholic church, one of the oldest in the city, has purchased a block of ground adjoining its church at Twelfth and Doniphan streets, and it will erect a church, parish house and parochial school, costing more than \$150,000.

The late Rev. Fr. Francis W. Graham, former pastor of St. Vincent de Paul church in Sedalia, was for many years pastor of the St. Joseph church and held the pastorate at the time of his death.

THE "OUTLAW" LOOKS GOOD

So Writes the Sporting Editor of the Kansas City Journal.

A ball player who is contemplating playing in the Interstate Independent league said to me yesterday, writes the sporting editor of the Kansas City Journal: "Do you think the league will go through the season, and will it make money?"

My answer to him, as to all players contemplating playing with teams in that circuit, was: "It looks pretty good, with such men as 'Kid' Nichols, Drummond Brown, Jack Sweeney and C. M. Mann back of it."

One Comfort.

A certain lady prides herself upon always looking at the bright side of things.

"My dear," moaned her husband one day recently, as he tossed restlessly on his bed, "it's the doctor I'm thinking of. What a bill his will be!"

"Never mind, Joseph," said his wife. "You know there's the insurance money."—Stray Stories.

ARE BUT A MEMORY

FOUR CAPTAINS WHO FOUGHT WITH DEWEY ARE DEAD.

Half of the Commanders Who Wrote Their Names on the Pages of History May 1, 1898, Have Passed Away.

Of the eight battle captains who sailed with Dewey into Manila bay May 1, 1898, four are but memories in the hearts of the American people, for with the death December 5, of "Hoch der Kaiser" Coghlan, the fourth of this little galaxy of naval stars was piped to quarters. Not even one of the surviving captains is in active service to-day, for all, with the ranks of rear admirals, have been retired, and are living in different parts of the country. One, now Rear Admiral Lamberton, makes his home in Washington.

Once a year the Dewey captains gather at dinner, when the old battle is refought and the old memories retold. But a few months ago, on the anniversary of that May morning's battle, five of them dined together. Now, before the year has passed, Admiral Coghlan has gone, and next May but four of the grizzled sea dogs will join hands and hearts over the board.

Then what of the men who by death of Rear Admiral Joseph B. Coghlan have been brought again into the public eye? The eight captains who answered along the line, the signals which to Capt. Gridley read: "Fire when you are ready," and hurled their ships through the network of mines which lined the harbor and against the belching of the guns of Cavite wrote a hitherto untouched page in the history of naval warfare. The aggregate tonnage of the Dewey squadron, some 19,061 tons, was less than the single tonnage of that ship, the first of the new type of American Dreadnought launched recently, the North Dakota.

Capt. Gridley, Coghlan, Wild and Wood are dead, and those who still live prove no less the quality of the stuff of which the battle captains were made, and their little alcove in the hall of naval history is unique and unlike all others.

Capt. Gridley presents the characteristic example of the sterner stuff of which these men were made. When the Spanish squadron was sighted that morning and the orders to "go ahead" were given, Capt. Gridley was ill in his stateroom. The admiral had selected the Olympia, Gridley's ship, as the flagship, and the captain unflinchingly ascended to his post of duty, still

racked by the pains and agues of Asiatic fever. The order came to fire, and Gridley stuck to his post, fighting his ship with admirable clear-headedness until the white flag appeared on the Spanish forts and naught else remained of the Spanish squadron but the masts and towers protruding above the blue of the Asiatic bay. The battle being over, Gridley collapsed, to be conveyed to a naval hospital, where death followed shortly.

Dewey's fleet was officered by the following: Olympia (flagship), second-class cruiser, 5,865 tons, Capt. Charles V. Gridley (dead); Baltimore, second-class cruiser, 4,413 tons, Capt. Nemias M. Dyer; Raleigh, third-class cruiser, 3,183 tons, Capt. Joseph B. Coghlan (dead); Boston, third-class cruiser, 3,000 tons, Capt. Frank Wild (dead); Concord, gunboat, 1,710 tons, Capt. Asa Walker; Petrel, gunboat, 890 tons, Commander E. P. Wood (dead), and the dispatch boat McCulloch, revenue cutter service, Capt. D. B. Hodgson. The eighth of the battle captains was Benjamin P. Lamberton, then a captain who, while not in command of a vessel during the battle, took an exceedingly prominent part as Admiral Dewey's chief of staff.

THISTLES AND DANDRUFF.

An Interesting Parallel and a Valuable Deduction Therefrom.

Cutting down thistles no more relieves the land of thistles than does scouring the scalp cure dandruff. In each case permanent relief can only come from eradicating permanently the cause. A germ that plows up the scalp in searching for the hair root, where it saps the vitality, causes dandruff, falling hair and baldness. If you kill that germ, you'll have no dandruff, but a luxuriant suit of hair. Newbro's Herpicide is the only hair preparation in the world that cures dandruff and falling hair by killing the germ. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. Scotten Drug company.

STOP CONVICT CONTRACTING

Senate Approves Bill for Gradual Abolition of System.

Jefferson City, Mo., April 29.—The senate last evening passed Senator Lane's bill providing for abolishing gradually the convict contract system. It provides for the employment of not less than 300 convicts by the 1st of April, 1911, in the manufacture of wearing apparel and making articles for use in the state and local charitable institutions.

Each succeeding year the number is to be increased 300.

Meantime, the warden and the board of prison inspectors are prohibited from entering into any contract for convict labor for a longer period than three years.

There also is a provision to this measure by which counties may utilize no more than fifty convicts to the county in constructing highways, provided the counties bear the expense of transportation and the keep of the convicts.

Only three senators voted against this measure. They were: Senators Allee, of Miller; Major, of Howard, and Oliver, of Pemiscot.

SIMPLE REMEDY FOR DIRT.

Preparation That Cleanses Delicate Fabrics Without Injury.

The Paris Art Institute offered \$10,000 for a preparation which would clean delicate fabrics and not fade or injure the finest of colors. The following simple remedy for dirt won the prize: Grate raw potatoes to a fine pulp; add one pint of water to a pound of potatoes; pass this liquid through a coarse sieve into a vessel and allow it to remain till the fine white starch settles to the bottom; then pour off the clear liquor, which is to be used for cleaning. For white silks use thin liquor with a little borax dissolved in it. I use my patent ironing board to sponge the dresses and waists on, using a clean sheet folded thick over the board and spreading one on the floor to protect the skirts. Dip a sponge in the liquor and apply it until the dirt is removed. Rinse in tepid water and press on the wrong side. I have cleaned opera and party dresses beautifully with this preparation. I have cleaned cashmeres, too, with it. I have done better work at home with this method than I have had done at the French cleaner's.—Exchange.

A Few Helps.

Put a pint of cream of tartar in frosting or fudge to prevent "going to sugar." It will make it nice and creamy.

To poach eggs and prevent their sticking to the vessel, grease the vessel before pouring in water.

To scald or boil milk, first rinse out the dish with cold water and immediately put in the milk, and it will not adhere to dish and burn, but will wash easily afterward.

When eggs are poaching or frying, cover the pan with a lid just the last moment of their cooking. This will give the pretty pink glazed outlook so desirable.

To make ferns luxuriant, moisten the earth around ferns at least once a week with cold tea instead of water. They will immediately give out new shoots and become a dark rich green.

For a Polished Floor.

Where a floor is inlaid or polished and the polish has worn off a good preparation for restoring is one-half pound of yellow wax, four ounces of oil of turpentine, one pint of linseed oil; cut the wax into bits and melt in something it can remain in (an old lard pail); add the oil (linseed); remove from the fire when hot and when almost cool stir in the oil of turpentine. When used put a little on a woolen cloth and rub in, then rub with a dry cloth.

Useful Trifles.

A pinch of cream of tartar added to sugar before boiling makes boiled frosting for cakes delicious and creamy. A pinch of salt and a little baking powder makes pie crust light and flaky and more digestible. One teaspoonful baking powder in one-half cup granulated sugar added to the white of one egg stiffly beaten makes a fluffy meringue for lemon pie.

What to Do with Drippings.

After frying bacon or meat of any kind take the drippings that are left and put them in a pan and cut a raw potato up fine and put it in, and let it cook for half an hour, and the potato will absorb all the odor and taste and the lard will come out as clear as fresh lard.

English Hoe Cakes.

Scald a quart of Indian meal, using just enough water to make a stiff batter. Stir in two teaspoonfuls of salt and two tablespoonfuls of butter. Turn into a buttered baking pan and bake for half an hour.

Sardines (Hot).

Pour the oil from box of sardines into a frying pan; when warm lay in sardines and brown a little. Serve on hot dry toast. Add a squeeze of lemon juice and a sprinkle of cayenne pepper.

J. W. Cooper guarantees "S" and Vigoral flour.

ECONOMY IN THE HOUSEHOLD.

Little Savings That Go Far to Cut Down the Monthly Bills.

That useful little article, the scrubbing brush, often wears out long before its time because of bad usage. Nine persons out of ten lay the brush upside down, forgetting that any moisture will sink into the back, often causing the bristles to fall out and making the brush sodden and unfit for use.

The household broom, scornfully characterized as the woman's weapon, is, as a rule, placed in the corner straw upward. Any water left in it sinks into the center, rusting the wire and rotting the straw. A broom should always be hung on a nail or placed in one of those patent arrangements that hold it firmly from the floor so that any dust or water may fall from it when not in use.

Where do all the clothes pins go? Strewn through the grass here and there to be raked up by the mower, soiled and broken, when he cuts the grass on his monthly round. Every one lost requires a new one to fill its place. And what of the clothesline left out through all weather, notably, as we have seen from one week to another? "Such little things are not worth mentioning," some one may say. Nay, all these little things and many more count largely in making up the yearly household budget, as every housekeeper well knows. These are the unnecessary expenditures that spoil the balancing of accounts.—The Housekeeper.

FOUR BOTTLES IN ONE.

Quarter Sections Each Intended for a Different Liquid.

The handy if homely old-fashioned castor which was wont to stand in the center of the dinner table within reach of every arm has been outdone in convenience. Now along comes a bottle with four compartments and as many stoppers, each quarter section being intended for a different liquid. On each division is engraved the name of the beverage it is to hold. One may have bottles marked for whisky, rum, gin and brandy; and there are what the dealer pleasantly styles, "afternoon bridge" bottles, bearing the inscriptions "sherry, claret, sauterne and madeira." Smaller bottles are made for liqueurs, and who knows but others will shortly follow, marked conveniently, "pickles, catsup, salad dressing and maple syrup?" The sectional bottles are said to be a revival of old colonial sideboard decorations, and some of them come with little stands of filigree silver or gilt.

Three Generations of Effort— That's What Clothcraft Means

Three generations of honest men have put their whole lives into CLOTHCRAFT CLOTHES.

All wool clothes with smartness and style to sell at sensible men's prices—this has been their meat and drink, their very existence, for 59 years.

These years have produced the wonderful processes and methods that make CLOTHCRAFT goodness and prices possible.

Clothcraft Clothes

All Wool—\$10 to \$25
 Think of it! The only clothing in this big land of ours that can be made of guaranteed wool and sold at \$10 to \$25.

The CLOTHCRAFT Guarantee kills the one chance that you take with any other clothing at common sense prices—the chance that the store-style and the store-smartness won't last.

You know that the style won't last unless the clothes are well made and unless they are pure wool.

Style That Holds

Smart clothes that stay smart and that sell at your price—this is what these honest men have produced for you in their 59 years of endeavor.

We know these men. We know their wonderful factory. We know their clothes.

So we cheerfully add our guarantee to theirs.

You take no chances with CLOTHCRAFT CLOTHES.

THE BILLBOARD MUST GO

IN THE EVENT THAT THE BILL OF SENATOR HEYBURN BECOMES A LAW.

IT WOULD AFFORD CONSIDERABLE FUNDS

This New Source of Revenue Might Be Considered in Connection With this Effort to Re-vise the Tariff.

Washington, April 30.—The newspapers of this country have every reason to support the bill introduced by Senator Heyburn, of Idaho, providing for a tax on advertising signs. In foreign lands these signs are taxed and afford a considerable public revenue.

Senator Heyburn proposes a tax of two cents per superficial square foot on signs advertising products which enter into interstate commerce. The taxes are to be paid to the United States treasury, and to be collected annually.

This new source of revenue might well be considered in connection with the effort to revise the tariff and reimpose war taxes of an objectionable character.

Throughout the country an effort is being made to suppress the advertising sign nuisance.

It has been tolerated altogether too long. It meets no public want, because the newspapers, magazines and other publications are the legitimate channels for the use of the advertiser.

They contribute to the education of the people and to the prosperity of the nation. If the press will stand solidly behind Senator Heyburn's bill, its passage will be assured and it will be effective in suppressing what has come to be an intolerable nuisance. The billboard must go.

SURE CATARRH CURE

Brings the Forests of Pine and Eucalyptus to Your Home.

Germs cannot live when Hyomel (pronounced High-ome) is used. You just breathe in this soothing yet most powerful antiseptic air and relief is immediate. It is exactly the same air as you would breathe in the forests of pine and eucalyptus of Australia where catarrh or consumption was never known to exist.

If you have catarrh and are constantly embarrassed because you must hawk, spit and snuffle, surely you will give Hyomel the attention it deserves, when W. E. Bard Co. will guarantee this pleasant remedy to cure all this distress and humiliation or will give you your money back.

Hyomel kills catarrh germs, it relieves the soreness and distress in five minutes. It stops hawking and snuffling and makes you feel like a new man in a week. It is the surest and most satisfactory catarrh treatment known and gives comfort and relief to consumptives.

A complete outfit, including inhaler, costs but \$1.00, and extra bottles, if afterward needed, cost but 50c. A few minutes' time each day is all you need to quickly cure the most chronic case. Hyomel is sold by leading druggists.

MI-ONA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

After Cooking Onions.

To remove the smell of onions, wash the pan thoroughly in the usual way and wipe dry with a dish cloth. Next sprinkle with salt, set on the stove and allow it to brown, shaking the pan well from time to time. Rinse again in clean water to which a lump of washing soda has been added, when all taste and smell of onion will have disappeared.

Meat Balls.

One pound of hamburger steak, one cup bread crumbs, one-half cup grated cheese, two eggs beaten until light, one tablespoon chopped parsley, salt and pepper; mix in balls size of an egg, then drop in soup stock, and boil ten minutes, and then add two beaten eggs, one spoon grated cheese, and stir in lastly for thickening; serve.

Salad and Cold Duck.

A delicious salad may be prepared from cold duck. Mince the meat fine, adding a small quantity of stuffing to it. Season highly with salt and pepper, stir in a little minced celery, and cover with mayonnaise or some similar dressing. Serve on a bed of lettuce leaves.

Good Sandwich Filling.

French candied fruits minced and moistened slightly with pineapple or orange juices are a favorite sandwich filling.

Washing a Pongee Dress.

USE OF SODA IN THE KITCHEN.

One of the Least Expensive and Most Indispensable Articles.

Acid fruits such as cranberries, gooseberries, plums and rhubarb require almost an unlimited amount of sugar, much of which can be saved by stirring in before sweetening a little soda (as a general rule a half-teaspoonful to a quart of fruit). A little soda put into the water in which vegetables or tough meats are boiled will make them tender and sweet, besides hastening the cooking. Ham should be parboiled in soda water, taken out, washed and scraped well, then finished by boiling in clear water. This method makes it sweeter and more tender than the ordinary way. In warm weather meat may be tenderized by washing in cold soda water before cooking. If slightly tainted this treatment will cure it. If in warm weather the bread dough raised too much and soured a little soda worked well into it will sweeten it again. A teaspoonful of soda stirred into beans after they are parboiled will make them far more wholesome. After the soda is stirred in well the beans must be drained and washed in a colander. Soda added to the dish water is far superior to soap; it imparts that polish to the dishes so pleasing to dainty housekeepers. Soda will keep tinware bright and will clean table and shelf cloth better than anything else.

A teaspoonful of soda is a valuable addition to the bath, especially in warm weather. Prickly heat or insect bites should be washed with soda water to relieve the itching. A teaspoonful of soda stirred in a tumblerful of cold water and taken internally will often relieve a sour stomach when nothing else will.

BETTER THAN THE GROUNDHOG.

Old Farmer Had Own Weather Sign That Never Went Wrong.

"Do I believe in the groundhog?" replied the old farmer with a smile, as the question was put to him. "Wall, I can't say as I do. Maybe there's some as do and maybe they find him all right, but I reckon it's mostly folks in the cities. I've noticed that they git all sorts o' notions into their heads."

"But there is a groundhog, isn't there?"

"Maybe, but no farmer can swear to it."

"But tradition tells us that the groundhog comes out of his burrow on the second day of February."

"Like enough he does, but I never heard of any farmer fool 'nuff to watch for him."

"Then you can't believe that if he sees his shadow he will go back in his burrow and stay for six weeks?" was asked.

"What's his shadder got to do with it?"

"I can't say."

"No more can I. He's a fool of a groundhog if he don't make his burrow in the woods, and how's he goin' to see his shadder there? Would it make any difference if a calf saw his shadder on that day?"

"Then I can take it that you don't believe in the old saying?"

"I hain't sayin' yes or no to the groundhog bizness," replied the old man, "but I'm tellin' you that I've got a better thing. When I git up on the mornin' of February 2 I take a good long look at the old woman's face. If I see a scowl between her eyes and hear her teeth grittin' I git ready for six weeks of snow and hail and jawin' and faultfindin' and callin' me names. If there's a smile on her face instead, and she makes extra good slapjacks for breakfast I just turn to and begin to grease the plow and hunt up the seed corn and look for blue birds and robins within ten days. The rest of the folks can have the groundhog if they want to, but as for me, gimme the old woman every time."

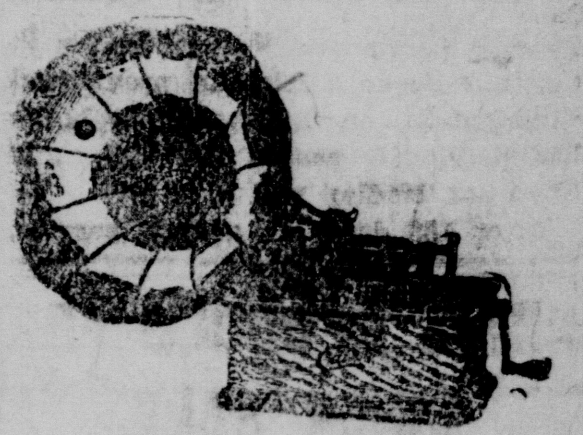

Nests That Weigh Tons.

In Australia are to be found the largest, heaviest, and most peculiar nests in the world. These are the nests of the jungle fowl, so-called, and are built in the form of great mounds, the average measurement in height being 15 feet and the circumference 150 feet. The nests are erected in secluded, sheltered spots; and, as in the case of the small nests of birds, they are skillfully interwoven with leaves, grass and twigs, and such other suitable material as the fowl may be able to procure.

A similar system in the construction of nests is followed by the bush turkey, whose home is, however, more

comprehensive in design. Its shape is pyramidal. It has been asserted by Australian naturalists that the nests of the bush turkeys, which live in colonies, are so large that to move them requires the services of six or seven men. The material of a single nest has been found to weigh upward of five tons.—Sunday Magazine.

"My Worst Aches"

"Every Month"

writes Mrs. Mattie Campbell, of Ratcliff, Tex., "I suffered untold misery. It is hard to say where my worst aches were, for I ached all over. At times I wished for death to end my suffering. Finally I decided to take Cardui, which has stopped my suffering and made my life worth living. I would not be back, like I was, before I took that wonderful medicine, CARDUI, for this whole world rolled at my feet."

Why suffer female pain, when Cardui, Woman's Relief, is in every drug store, waiting for you to give

it a trial? It has helped thousands of others. Why not you? Female pain is a sign of female disease. Female disease is a sign of female weakness. Weakness, disease and pain, have been found to disappear, by the use of Wine of Cardui. Try it. All reliable druggists sell it.

War Record Is Cleared.

Jefferson City, Mo., April 30.—The senate last night passed the bill removing the charge of desertion against William Estes, who served in Co. "C," Seventh Missouri provisional regiment in the Civil war. The house had previously passed the bill, and Governor Hadley will sign it.

Estes learned that his father had died and that his brother had been killed in the war. At home was his mother, a widow, and a family of small children. Estes furnished a substitute and returned home, but in some unexplained manner the charge of desertion was preferred against him.

The Revealing Vision.

Long ago in the days when our caged blackbirds never saw a king's soldier without whistling impudently "Come over the water to Charlie," a minister of Thrums was to be married, but something happened and he remained a bachelor. Then, when he was old, he passed in our square the lady who was to have been his wife, and her hair was white, but she, too, was still unmarried. The meeting had only one witness, a weaver, and he said, solemnly, afterwards: "They dinna speak, but they just gave one another a look and I saw the love-light in their een." No more is remembered of these two, no being now living ever saw them, but the poetry that was in the soul of a battered weaver makes them human to us forever.—J. M. Barrie.

The Erudite Barber.

"I don't see," said the erudite barber as he stropped his razor, "why our customers complain that men of our profession are exceedingly loquacious. All who enter the modern barber's place of business should know what to expect. Every barber shop is a 'tonorial parlor' nowadays. The word 'parlor' literally means 'talking room,' just as 'parliament' means an assembly of talkers. Parlor and parliament have the same root as the French 'parlez,' which means to talk, and then there is the English 'parley,' to exchange words. Moreover—" "Moreover," gasped the victim in the chair, "I am in a very parlous position."

SMOKE GOLDEN ROD CIGAR, 10c.

Why Women Grow Prematurely Old. Women, condemned to the steam-heated life of our American cities, fed on the too abundant meat diet, which is our bane, breathing and sleeping wrongly, suffering the lack of physical exercise, which oddly enough, is the result of our so-called "busy" lives, continue to age and to lose suppleness, grace, vigor and natural charm, writes Kate Masterson, in Collier's. All the wonder-working grease and bleaching acids in the world will not do more than achieve a surface smoothness.

RUMBLINGS OF THE RAIL

MISSOURI LINES NOW HAVE RATE CLERKS WORKING ON NEW TARIFFS.

COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

Passenger rate clerks of the Missouri lines met yesterday at the office of Chairman Hannegan of the Southwestern bureau, to line up tariffs on the 2 1/2-cent rate basis, says today's St. Louis Globe-Democrat.

As already announced, the Burlington, the Rock Island and the Alton will place this basis in effect on Saturday, May 1. The same day the Rock Island-Frisco will place the same rate in effect in Arkansas. Wherever competition on a lower basis is found, however, it will be met by the lines mentioned above. The Missouri Pacific, the Iron Mountain, the Wabash, the Cotton Belt, the Missouri, Kansas & Texas and the Santa Fe will adhere to the 2-cent basis until the litigation in the state court is disposed of.

The special committee appointed at the Chicago conference of executive officers to prepare a report embodying recommendations for minimum excursion rates will get to work at once, and it will be submitted at a further conference of the executives to be held after Judge Phillips has ruled on the order restraining the state officials, which will be called up in the federal court at Kansas City next Wednesday.

The Burlington having announced the 2 1/2-cent basis as the maximum and minimum for Missouri, it remains to be seen what action the lines will take in the future on mileage books. If the minimum policy is adhered to all mileage concessions will be eliminated. If the lines should issue mileage at a reduced rate the attorney general would attack that policy as a discrimination.

"As far as we are concerned the 2 1/2-cent fare in Missouri is settled. The fight in Nebraska is the next one we will have," said B. L. Winchell, president of the Rock Island system, last night. Mr. Winchell was returning to Chicago after an inspection trip.

The Crimean Crime.

Kinglake was all for war. "He used to say," says Mme. Novikoff, "that peace would enslave the world. 'Besides,' he continued, 'population when too dense is not at its best.' He did not like Bright. Mme. Novikoff told Kinglake one day that Bright had made a curious remark about the Crimean statue in Pall Mall. 'The inscription,' he had said, 'should be altered. The 'a' should be put before the word 'crime,' and not at the end!'" —London Chronicle.

SALOON THOUGHT NO. 134.

Some Important Facts.

The Louisville Evening Post points out a fact of comparative statistics which "kept" statisticians of the liquor business naturally have overlooked. It calls attention to the fact that in the city of Louisville last year there were forty-seven homicides, while in the state of Maine, with a population four times as great as that of the city of Louisville, there were only three cases of homicide. It says:

"In the state of Maine there is a law prohibiting all traffic in liquor. It is violated, of course, just as the laws here against homicide are violated. In the city of Louisville we have 750 saloons. Last year we had 900 saloons. If the homicidal mania prevailing in Louisville had prevailed in Maine, Maine instead of having three homicides, would have had four times forty-seven, or 188 homicides. following summary of the ravages of
the storm elsewhere:

Chicago—Twenty-six lives reported
lost. Buildings wrecked all over the
city. Elevator valued at \$1,250,000
burned. Wires down in every direc-
tion.

Peoria—Buildings damaged, small
boats sunk, city isolated four hours
and one man hurt.

Fort Smith, Ark.—Six lives lost in
Washington and Crawford counties.
Village of Harleton swept away.
Heavy property loss.

Knoxville, Ark.—Fourteen persons

injured and many houses wrecked.
Memphis, Tenn.—Village of Harn

GIRL TOLD OF SHOOTING

"JOHNNY" DAVIDSON WAS ON
THE WITNESS STAND AT
NEOSHO YESTERDAY.

SHE SAYS THE KILLING WAS AN ACCIDENT

Prosecution Failed to Shake Her in
the Slightest Particular When
She Was Subjected to
Cross-Examination.

Neosho, Mo., April 30.—Undaunted
by a charge of murder in the first
degree—not fearing the dozen strange
faces in the jury box, under whose
countenances her fate repose—pretty
"Johnny" Davidson took the witness
stand yesterday in her own behalf.

In a voice void of emotion, a smile
on her face, the young woman detail-
ed the circumstances that led to the
death of Roy Ramsour at her hands
last June.

Miss Davidson entered the court
room attired neatly in black, and
wearing a modest, but fashionable
hat. She greeted her attorneys with
a smile and passed a pleasant word
with friends. The preceding two days
of the trial evidently had been no
ordeal for her. She showed no sign of
fatigue nor of anxiety.

She was accompanied by her wid-
owed mother and her sister, Grace,
over whom the shooting of Ramsour
occurred. Miss Jacques Hancock, her
cousin, a school teacher at Joplin;
Mrs. Blackstone, her widowed sister,
and Mack Price, her brother-in-law,
sat beside her throughout the day.

After her sister, Grace, had testi-
fied, Johnny Davidson was called to
the stand. She took up the thread of
the story of the killing at the point
where Ramsour, after a quarrel with
Grace Davidson, came out of the Da-
vidson home into the yard.

"I was sitting in the swing," said
Johnny. He came to the swing and
said:

"You have been trying to cause
trouble between Grace and me."

"I said I had not. Then he struck
me in the face. He cursed me and
tore my dress."

"I was frightened. I went to grand-
mother's house and got the revolver.
Then I came back and was going in
to our house with the revolver in my
hand, when Grace called for me."

"Looking around, I saw Ramsour
pulling her toward the street. I ran
to them and told him to let Grace
alone and go home."

He said he would not. He said he
was going to 'get Grace,' I said:

"You are a coward to treat a girl
like that."

"Do you say I am a coward?" he
yelled.

"Yes, you are a coward," I told
him.

"You damned —, you are a liar,"
he answered.

"Then I raised the revolver."

"You take that back," I said.

"He jumped toward me, grasped
my hand which held the revolver
with one of his hands, and tried to
strike me with the other. In the
struggle—he trying to hit me and I
trying to dodge his blows—the revol-
ver was discharged."

Even here her voice did not falter
as she added: "It was an accident."

On cross-examination her testimony
was not shaken in the slightest. Nei-
ther was the prosecution able to dis-
credit it one iota.

Grace Davidson, who preceded the
accused girl on the witness stand,
testified in a straightforward, certain
manner. She said she had frequently
received Ramsour at her home. When
he began to get drunk, however, she
tried to cut off his attentions. He in-
sisted, she said, that she entertain no
other than himself.

On the day of his death he went to
her house and quarreled with her.
He threatened to "get" her and her
sister, Johnny, she said, unless he
had his way.

Grace went into the yard. While
scuffling with Ramsour her sister ap-
peared with the revolver.

Grace is a tall, slender, handsome

girl. She was stylishly dressed. She
showed no sign of any strain the trial
may be causing her.

The Davidson girls are co-heirs to
a part of a large estate. This was
left to Charles Davidson, their father,
by their grandfather, a capitalist, of
Louisville, Ky. It consists of stocks
and bonds. The income is payable to
the Davidson family until the young-
est child is 25 years old, when it is
to be divided.

BINDS WOMAN IN CHAIR

ROBBER TIES A NEW YORK DOG-
TOR'S WIFE AND THREAT-
ENS TO MURDER.

WITH DIFFICULTY SHE 'PHONED FOR AID

Removed the Receiver With Her Teeth
After Raffles Departed—He
Missed Getting \$5,000
Worth of Jewels.

New York, April 30.—While Mrs.
Louise Mann, wife of Dr. Charles
Maitland Mann, of 535 West One
Hundred and Eleventh street, sat
bound to a chair in her apartment
and two prize bull dogs, locked in the
kitchen, were tearing at the door to
reach her assailant, a modern Raffles
covered the woman with a revol-
ver and coolly searched her bureau
for jewelry. He got gems worth \$300,
but missed the jewel case containing
\$5,000 worth more. Then he escaped.

The burglar entered the Montfort
apartment house, where the physician
lives on the first floor, about 4:20
o'clock Wednesday afternoon and
rang the private bell.

As the maid was out, Mrs. Mann
answered the bell in person and ad-
mitted a handsomely dressed man of
middle age, who said he wished to
see the doctor. On being told that he
was attending a patient, but would re-
turn in half an hour, he inquired if
he might wait. Being told that he
could, he seated himself and picked up
a magazine.

Mrs. Mann had turned to leave the
room when she suddenly felt herself
caught from behind by powerful arms.
At the same time a hand was clasped
firmly over her mouth, while a
voice said, quietly:

"Don't move or try to yell, for if
you do I'll have to kill you and that
would be disagreeable."

Instinctively Mrs. Mann screamed,
but the scream ended in a gurgle, as
the pressure over her mouth was in-
stantly increased. At the same mo-
ment she felt the muzzle of a revolver
pointed against her temple.

"I told you not to do that," said the
visitor. "All I want is your money
and valuables, and I'm going to have
them."

Slamming the woman into a chair,
the burglar laid down his revolver,
took three lengths of rope from his
pocket and tied Mrs. Mann's hands
and feet. Then he slipped a rope
around her waist and tied her firmly
to the seat.

About this time the two bull dogs
had scented trouble and began to
growl. The thief heard them, and
going to the kitchen door, saw that it
was securely shut. This brought howls
from the dogs and the sound of teeth
on the door jam. The growling didn't
seem to worry the thief, who kept up
a one-sided conversation with Mrs.
Mann. He demanded to know where
her valuables were, but she was too
frightened to answer, so he rummaged
about and succeeded in finding
several large rings and pins. Then
he departed.

The man passed the hall boy and
disappeared around the corner. He
had no sooner left than Mrs. Mann
screamed. She received no reply and
so worked her chair to a telephone on
a desk close by, removed the receiver
with her teeth and called hysterically
to central to send a policeman.

Ten minutes later two detectives
appeared, broke open the door which
was locked automatically and found
Mrs. Mann semi-conscious. A call was
sent to the J. Hood Wright hospital.
Dr. Charlton responded and found
Mrs. Mann suffering from shock. She
could not give a good description of
her assailant.

PRISON WARDEN WEBS

Ceremony at Jefferson City Attracts
Wide Attention.

Jefferson City, Mo., April 30.—Col.
Henry Andrae, warden of the peniten-
tiary, and Miss Gussie Neef were mar-
ried in the home of the bride's mother
at Neef Terrace in this city at 7
o'clock last evening the Catholic cere-
mony being performed by Rev. Dr.
Joseph S. Seinger.

The only other person present at
the ceremony, aside from the relatives,
was Dr. Selinger's assistant,
Rev. Fr. Geisert. There were no at-
tendants.

At 8 o'clock several hundred guests
attended the wedding reception at
Neef Terrace, and a gay and brilliant
company assembled from all parts of
the state. In the receiving line with

Col. and Mrs. Andrae were Governor
and Mrs. Hadley.

GIVEN 18 YEARS BY JURY

Slayer Guilty of Murder in the Second
Degree.

St. Louis, Mo., April 30.—Murder in
the second degree, with the punish-
ment eighteen years in the peniten-
tiary, was the verdict of the jury in
the case of Herman A. Kretschmar,
who shot and killed Clarence N. Jones,
president of the Commonwealth Feed
Mills company, in his office at DeSoto
avenue and Second street, February 3.

It was a compromise verdict, reach-
ed after many ballots had been cast.
The jury was out from 5:15 to 9:15
p. m. One hour was spent at supper
in a restaurant near the Four Courts.

DOUBLE GOOD IN VACCINATION

Is Protection Against Smallpox and
Whooping Cough.

Cincinnati, O., April 30.—"I have
frequently killed two birds with one
stone by vaccinating a child that had
never been vaccinated before, and
thus protecting it, not only against
smallpox, but also against whooping
cough," said Dr. H. L. True, of Mc-
Connellsville, before the annual con-
vention of the Ohio State Electric
Medical association in the Grand hotel.

"Vaccination for Whooping Cough"
was the subject of Dr. True's paper,
and he declared that his observation
had convinced him that vaccination
served a two-fold purpose and acted
as a protection for the child against
whooping cough.

Tools for Business

The best hand tool a farmer can use is a Keen Kutter tool. A Keen
Kutter hoe, fork, shovel, or scythe will do more hoeing, pitching,
shoveling, or moving than any other similar tool—because it is
better adapted to its work and stands more hard wear. Farmers
accomplish more, and make more when they use

KEEN KUTTER

tools. Keen Kutter tools—Hoes, Forks, Scythes, Shovels, Manure
Hooks, Rakes, Grass Shears, Lawn Mowers, Axes—all Garden Tools
and a complete line of Carpenter Tools—are each of the very
highest quality.

All working or cutting parts are forged from best crucible
steel, and oil tempered to give elasticity and long wear.
This careful manufacture makes Keen Kutter tools
long-lived—they last twice as long as common tools.
Each Keen Kutter Tool is finely finished, and
properly hung or adjusted for best and easiest
work.

Ask your dealer to show you tools
bearing the Keen Kutter trade mark.
If he does not have them we will tell
you where to get them.

Great Things in Little.
The Italians are wonderfully clever in working with the most minute things. A skillful Italian has made a beautiful little boat out of a pearl. The sail is of beaten gold studded with diamonds. A tiny ruby serves as a headlight. The rudder is an emerald, and its stand is a little slab of ivory. The boat weighs less than half an ounce, and is valued at \$5,000.

Not to be outdone by a man, an ambitious Italian woman has painted on a canvas, so small that half a grain of corn hides it from view, a windmill with the miller, and a horse and cart with people in the cart.

Some of the Italian mosaic workers in Florence will take bits of stone and glass no larger than grains of mustard seed and fashion them into the most graceful flowers and other designs on shirt studs.—The Sunday Magazine.

WANTED HIS FAVORITE ALIVE.

Peculiar Order Placed by Small Devotee of Popular "Alice in Wonderland."

The son and heir is seven years old—old enough to spell out, with helps over the hard words, "Alice in Wonderland," and to enjoy it hugely, especially the memorable duet between the Mock Turtle and Griffin. Recently, as a great treat, he was permitted to accompany his pretty young aunt to luncheon at one of New York's famous restaurants, and, as a crowning joy, invited to select his own delicacies. Long and earnestly he pondered over the bill of fare; then his eyes grew big and his face illumined as he laboriously read the list of soups. "Yes, thank you, I've decided what I want," he said with nervous gaiety; then with an impressive knitting of his brows he addressed the attentive waiter: "I'll have one very, very small mock turtle, but don't make it into soup—just bring it along alive and kicking."—Lillian Dynevor Rice in Woman's Home Companion.

GATHERING IN THE SHEKELS.

All Were Fish That Came to Scotsman, Winner in Golf Tournament.

Scotsmen are noted for their caniness, and a story told by a Lancashire commercial traveler, who was up in Aberdeen a few days ago, shows that the men beyond the Tweed are still worthily upholding their reputation. The traveler in question was asked by a prospective buyer to subscribe to the prize fund for the local golf tournament. He parted with five shillings, and as he was interested in golf he remarked that he would like to be kept informed of the progress of the tournament so that he could look out for the result.

"O," said the customer, as he picked up the five shillings and placed it securely in his pocket, "ye needna dae that. The tournament was held last Saturday." This was rather a staggerer for the latest contributor to the prize fund, but he retained curiosity enough to inquire who had proved the happy winner. The guileless solicitor for subscriptions was quite undaunted, however. "The winner?" he said, coyly, "O, just mesel'."—Rehoboth Sunday Herald.

New Method of Keeping Potatoes.

A German publication, "The Practical Adviser in Fruit Raising and Gardening," states that a new method for keeping potatoes and preventing sprouting consists in placing them on a layer of coke. Dr. Schiller of Brunswick, who has published the method, is of the opinion that the improved ventilation by means of coke is not alone responsible for the result, but believes that it is due to the oxidation of the coke, which, however, is a very slow one. Coke always contains sulphur, and it is very possible that the minute quantities of oxides of carbon and sulphur, which result from the oxidation, mixing with the air and penetrating among the potatoes are sufficient to greatly retard sprouting. Potatoes so treated are said to keep in good condition until the following July.

STORM STOPS A BURIAL

Horses Run Away at Mrs. H. C. Timmonds' Funeral.

Lamar, Mo., April 30.—The worst wind and hail storm in years visited Lamar at about 3 o'clock last afternoon, lasting about ten minutes. The hailstones were as large as hen eggs and broke window panes and skylights all over the city.

All the window panes in Mrs. E. H. Hitchcock's greenhouse were broken, as were a great many in the court house. Over 100 horses and teams were exposed to the storm at the funeral of Mrs. H. C. Timmonds, who was killed in a runaway at Kansas City Sunday afternoon.

The body had been placed in the hearse and the pallbearers were in their hack when the storm burst, frightening the funeral party's horses until some broke loose and ran away.

It was with difficulty that the horses to the hearse could be prevented from running, and there was great excitement and alarm among the many present, but there was no damage done, and after the storm subsided the cortege proceeded on its way.

BETTER THAN STEWED PRUNES.

Cheap and Wholesome Fruit Is Appealing When Baked.

Some one has said that you couldn't run a boarding house without prunes, and certainly there is no fruit so cheap, and at the same time so wholesome, says an authority on foods. I think the boarder's chief objection to them is the monotonous way in which they are cooked. Now it is just as easy to bake prunes as to stew them, and the result is far more appetizing, as a rule. They should be first washed, then placed in a heavy earthen pudding dish or stone pipkin, covered with a plate and thoroughly baked in the oven. They require no sugar, but will be improved by a sprinkling of fine shavings from the yellow rind of lemons or oranges. They taste best when served cold with whipped cream.

I very much doubt if prune soup has been tried by American cooks, though it is a great favorite in Sweden. It makes an agreeable variety with the ordinary run of cream soups. The children will like it with plenty of bread for luncheon. The recipe reads:

Wash three pounds of prunes and soak over night in two quarts of water. In the morning cook in the water in which they have been soaked for two or three hours. At the same time cook in a separate saucepan one cupful oatmeal in two quarts of cold water. Let this also boil two hours, stirring frequently, unless you cook it in a double boiler. Strain the oatmeal. Half an hour before the prunes are done add a half cupful seeded raisins. Now add the prunes and raisins to the strained oatmeal, together with the juice of two lemons, a half cupful sugar and a salt spoonful salt. This may be served hot or cold as preferred.

Cleaning Furniture.

Many housekeepers overlook the necessity of thoroughly cleaning chairs and other pieces of furniture, some parts of which become so soiled that the ordinary dust cloth does not do what is required.

Wooden chairs that have nothing to protect them where the hair often rests, wooden arms on rockers, and the tops of a dining chair where the hand lifts it and where soiled coats rub against it become so soiled that white gowns and waists often show contact with them.

Use a soft cloth and slightly warmed water and do not be afraid of soap, a good soap. Do not have the cloth too wet and hurry the operation. Dry quickly with another soft cloth and polish at once with a soft flannel dipped in paraffin oil, which can be bought at any drug store for a small sum. Try this paraffin oil for a furniture polish and you will never want another.

Cauliflower Creamed.

Boil a cauliflower in salted water for half an hour, drain dry, and set in a lined saucepan with one pint of milk, same quantity of hot water, and simmer for half an hour longer. Take up the vegetable very carefully, drain it, place on a hot dish, and pour over it the following sauce. Place one-half

Fear of Microbes.

Microbes are agents of disease and death. When they were discovered and when their character was exposed science made a big step forward. Microbes taught men not only how to cure disease, but how to avoid and even how to prevent it. But into life they brought a new terror! Now the question is how to guard against the terror. For all fairly healthy persons there is just one thing to do. Ignore the existence of microbes altogether! Don't even stop to think of them, save in emergencies, which, to the layman, seldom arrive. Human beings have no reason to be in continual fear of microbes. The way to be immune from their influence is by not caring a snap of the finger about them, and by observing the ordinary rules of wholesome living. Eat and sleep regularly. Take exercise. Keep in fresh air. And devote a few minutes each day to deep breathing. Microbes hate healthy people as the devil hates holy water.

The Master Builders of the
Marvel March of Science.

Weak Women Dep't.

Lady Attendant.

We pride ourselves on our great achievement in restoring the gentler sex to health, strength and beauty. A clear, rosy complexion denotes perfect health. It is the health of the wife, the mother and daughter that mars or makes the happiness of the home life. Many suffer in silence and drift along from bad to worse, well knowing they need medical attention. To all such sufferers we extend a helping hand. The results of our Painless, Bloodless Surgery Treatment has startled the Medical world. We cure absolutely and permanently without operation or use of the knife, advanced cases of Tumor, Enlarged Glands, Cancer, Ovarian Fibroid and Uterine Tumors, together with all other complications arising from them. Our cured patients are our best advertisements and from time to time we publish the few of our most extraordinary cures.

Read what they have to say.
We cure with the same guarantee of success, deep-seated and complicated diseases of the heart, stomach, liver, kidneys, nerves, bowels, all chronic bladder and genito-urinary diseases of men and women.

To All Who Suffer.

Come to our office and we will make a thorough, searching and scientific examination of your case, Free of Charge, and if we find that your condition will yield to the influence of our advanced methods and new discoveries, then we will take your case.

DR. CAMP MEDICAL COMPANY

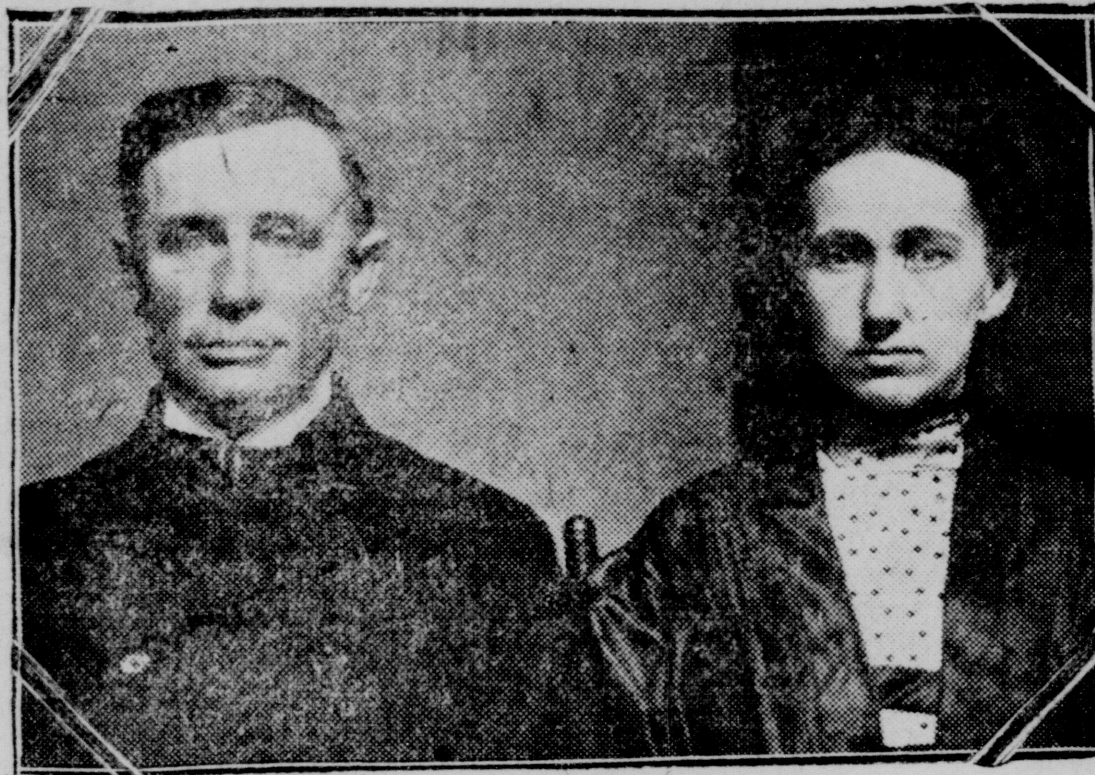

MR. AND MRS. LEE, 916 WEST FIFTH STREET.

Mrs. Lee, residing at 916 West Fifth street, is a very estimable and highly respected lady, who has a host of friends that are much surprised and greatly delighted at the remarkable and most extraordinary cure she has received while taking a course of our famous painless, bloodless surgery treatment for female disease. Mrs. Lee is widely known, having resided in this city for over 30 years, and we take pride in our great achievement of restoring her to health. Our cure should challenge the admiration of the medical world, for the like was never accomplished before, but by our new discovery, we were able to absorb a tumor as large as a turkey egg attached to the womb, without pain, operation or the use of the knife. Mrs. Lee is a good and noble woman, and fearlessly comes forward and proclaims her affliction, telling what has been done for her, all for the benefit of her suffering sisters.

Dr. Camp Medical Co. Gentlemen:
I know it is a delicate subject for a lady to express her troubles to the public, especially for one who has suffered as I have, but I feel so deeply indebted to you and so grateful for the wonderful cure you have performed that I feel it my duty to make known what you have done for me. Some two years ago I began to have severe flooding spells, and nothing I could do gave any permanent relief. I consulted the best physicians here and at Kansas City; all said it was Fibroid Tumor of the Uterus. I was treated at home for a number of months, and afterwards went to Kansas City, and was treated there for some time, but I gradually grew worse, and was told that I would have to submit to an operation. I came home and had lost hope. I was so weak that I could do nothing; but as a last resort I consulted you, and when you told me you could cure me without an operation or the use of a knife, I was so impressed with your assurances that I immediately began treatment and I am certainly overjoyed and more than thankful, for you have done all you said you could, and my tumor has entirely disappeared. I feel like a new person. It will always be a pleasure to me to answer all correspondence from those who suffer.

MRS. ZORA M. LEE, 916 W Fifth St.

MR. AND MRS. S. L. JENKINS.

Mr. and Mrs. Jenkins are a very estimable couple, residing near Ashland, Mo. Mr. Jenkins is a large land owner and extensively engaged in farming. They have the respect and confidence of all who know them, and stand high in the community in which they reside. Mrs. Jenkins came to us some months ago suffering from all the early symptoms of Tuberculosis, combined with Female weakness, which, if unchecked, the inevitable result would have been only the matter of a short time, as her father had recently died from that terrible disease, Consumption. She was immediately placed upon our Inhalatorium Treatment, combined with our Painless, Bloodless Surgery Treatment for weak women, all of which is a part of our Modern Americanized European Method, and we are more than pleased to say that we were able to arrest the progress of her disease and she is now out of danger. Mrs. Jenkins expresses much gratitude for what has been done for her.

The Dr. Camp Medical Co. Gentlemen:

I feel it my duty to express to you my great appreciation for what your Wonderful Inhalatorium Treatment has done in my case, for I know that you have saved my life.

Consumption runs in our family and I was certainly in a bad way when I came to you. You are certainly specialists of great skill and have the only certain cure for lung diseases.

Wishing you all the success you so richly deserve, I am ever yours gratefully.

DORA JENKINS, Ashland, Mo.

MR. AND MRS. W. L. SNAPP.

Mr. and Mrs. Snapp are highly respected and influential couple of Northeast Pettis county, residing near Nelson, Mo. Mr. Snapp is one of our solid, substantial, industrious citizens whose word is as good as his bond, and everybody respects. His wife came to us some months ago, suffering from an aggravated case of female weakness, complicated with fibroid tumor of the womb. Being the mother of a large family of small children, she was in a deplorable condition—weak, nervous, in constant pain and all run down with a profuse discharge, but we are pleased to say that by our Modern Americanized, European Method of Painless, Bloodless Surgery Treatment for female diseases, we were able to overcome her disease and all her troubles are about over.

Dr. Camp Medical Co. Gentlemen:

The above is a true and accurate history of my wife's condition, and I am very thankful for what you have done for her. She had suffered so long without getting any relief that it is a great pleasure for me to recommend your New System of Treatment to all anxious husbands. Yours very truly,

W. L. SNAPP,

R. F. D. No. 3, Nelson, Mo.

MUCH MONEY IS CABLED

BY WEALTHY AMERICAN SPORTING MEN TO WAGER ON ENGLISH HORSE RACES.

SHUT OUT HERE BY ANTI-BETTING LAW

One Financial House in New York Sent \$25,000 to London—Money to Be Placed on the Three Biggest Events.

New York, April 30.—Wealthy sporting men, deprived of their pastime at home by the anti-betting law, have cabled large sums to London recently to be placed at the prevailing

odds upon American horses shipped abroad for racing at the big English meetings.

A representative of one financial house in this city stated that his firm alone, acting upon instructions of New York betters, had cabled more than \$25,000 to London. He added that he was not the only one acting as betting agent for those who wish to stake their money upon American thoroughbreds.

Ballot and Colin, owned by James R. Keene; Sir Martin, bought by Louis Winans from John E. Madden; and Norman II and Priscillian, owned by August Belmont, are especially liked by American plungers, and most of the dispatches at least bear the names of these three horses. The wagers are all transmitted as ante-post bets, as they are called in England, or to translate into American parlance, future books.

The American plungers are not largely interested in the present races. They are after the three big English turf events, city and suburban, at Kempton park; the Kempton park great jubilee, and the derby, which will be run at Epsom Downs on May 28.

Warrensburg, Mo., April 30.—The Warrensburg state normal baseball team defeated the Maryville state

normal team here yesterday in a one-sided game, score 19 to 0. Maryville only had one man to reach first base. Harry and Dick Thomas divided honors in the pitcher's box for Warrensburg and completely puzzled the visitors.

Old Bills of Lading Expire.

New York April 30.—The time for using the old bills of lading expires today. The date was twice extended under a storm of protest by shippers from all over the country, who held that inasmuch as they had large quantities of the old forms in stock, they would be greatly inconvenienced by the change. All further efforts for an extension, however, were refused.

Gehlken & Milburn sells both "S" and "Vigoral" flour.

BURGLARS MAKE ACID TEST

Jewelry Store Thieves Discriminated and Got \$4,000 in Gems.

Chicago, April 30.—The jewelry store of John S. Townsend, just south of the loop district, has been robbed of articles valued at \$4,000 by scientific burglars, who tested their plunder with acid before taking it. Flated lockets, charms and watch chains valued at \$1,000, ruined by the test, were found strewn about the floor.

Crowbars stolen from a place where workmen are engaged in repairing the street car tracks, were used in prizing open the iron bars of a rear window.

Weak Women

To weak and ailing women, there is at least one way to help. But with that ray, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system seeking the repair of all nerves, all tissue, and all blood ailments. The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Several thousand dollars worth of diamonds were locked in two safes equipped with electric burglar alarms. The fact that no effort was made to tamper with these safes convinces Mr. Townsend the burglars were familiar with the premises.

During the spring everyone would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the strain of winter, and it purifies the blood by stimulating the kidneys and causing them eliminate the impurities from it. Setting the Capital in Order.

In December, 1900, the centennial anniversary of the removal of the seat of government to the District of Columbia was observed. With one accord, senators, representatives, governors and others of high and low degree expressed the belief that the time to set the city in order, artistically, was at hand. Among other organizations celebrating the anniversary was the Institute of American Architects, which in its discussion of past achievements did not lose sight of the fact that the future held possibilities. Working on its suggestions, Senator McMillan, chairman of the committee on the District of Columbia, secured the passage of a resolution authorizing him to appoint a commission to prepare a plan for the improvement of the park system. The commission, composed of Daniel H. Burnham, Frederick Law Olmsted, Jr., Charles McKim and Augustus St. Gaudens, prepared a plan which, conforming so far as possible with that of L'Enfant, extended it to meet present conditions, and provided measures to neutralize the misplacing of the Washington monument and other buildings.

The appointment of this park commission marked the third epoch in the development of Washington as a beautiful city. It did more than that, for though the plans submitted by the commission have not been realized—and, indeed, it was not expected that they would immediately—the attention of the entire country was aroused and the movement for the betterment of other cities given impetus.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion.—Arlington Pharmacy.

Rev. J. Frank Norris Declares It Will Cost Texas \$100,000,000.

Dallas, Texas, April 30.—The Rev. J. Frank Norris, editor of the Baptist Standard, in addressing the graduating class of the Baylor Medical school last night, made some bold and unusual utterances.

His topic was about "Sufferings." He severely criticised the state for the big fine against the Waters Pierce Oil company.

He said it was not justified and predicted that it will cost Texas \$100,000,000 by keeping out timid capital that would otherwise be invested in Texas.
